

# THE WAY HOME

## THE WAY HOME TAKING ACTION TO ADVANCE HOUSING FOR HEALTH

Through innovative partnerships, strategic investments and impactful storytelling, communities can drive change for their most vulnerable. The Way Home, a short-form documentary series from KTF Films and Bread and Butter Films created with support from Kaiser Permanente, documents and humanizes the growing homelessness crisis in California and across the country.

**No one organization can solve the affordable housing and homelessness crisis alone—you can be part of the solution. Consider the following actions:**

**EDUCATE** yourself and your community on root causes and promising solutions to the homelessness crisis, sharing The Way Home with your network and learning more about the organizations featured in the series.

**CREATE** spaces to discuss healthy housing solutions, dismantling misconceptions about homelessness and encouraging conversations that build empathy and understanding for people experiencing homelessness.

**DISCUSS** and **SUPPORT** innovative, equitable housing policies, looking for opportunities to transform emergency measures developed during the COVID-19 pandemic into long-term, sustainable solutions.

**VOLUNTEER** with organizations in your community to provide resources and critical services that support people experiencing homelessness.

To learn more about the organizations featured in The Way Home and how to get involved, visit [thewayhomedoc.com](https://thewayhomedoc.com) and [about.kp.org/housing](https://about.kp.org/housing).
